JANITH MADARASINGHE

SOFTWARE ENGINEER (INTERNSHIP)

💻 **Janithpm.tech**

I'm a motivated computer science undergraduate from UCSC, where I've developed strong communication, and technical skills and a knack for tackling challenges. I'm eager to find an internship in Software Engineering, where I can contribute, multitask, and work well in a team.

EDUCATION

BSc. (Hons) in Software Engineering (GPA - 3.53)

University of Colombo School of Computing, Sri Lanka
May 2021 - Present

Assured Diploma in English (DIE)

Esoft Metro Campus (Pearson Assured organization)
Completed: July 2020

GCE Advanced Level - Physical Science (ABB)

2019 - President's College, Matara

PROJECTS

Stylioo (*Ongoing*)

NextJs | React | React Native | Express | Prisma | MySQL

Leading the development of a app suite for a Beauty Salon Management and Online Reservation System. Key components included a booking website, salon management (employee, stock, service, appointment, and leave management), a real-time appointment tracking mobile app and a RESTful API to ensured seamless integration between apps.

Github Repo : **github.com/stylioo**

Result Sheet (*Ongoing*)

React | Spring Boot

Leading the development of project Resut Sheet, an intuitive platform for academic performance tracking and result management. Our goal is to simplify the process of monitoring and managing academic achievements.

Github Repo : **github.com/Resultsheet**

Govithena

HTML | CSS | JS | PHP | MySQL

In our collaborative effort on the "Govithena" project, our group developed an innovative online platform that serves as a bridge between farmers possessing land and agricultural expertise and investors seeking opportunities to invest in farming ventures with available resources.

Github Repo : **github.com/govithena-php**

INVOLVEMENT

Project Team Lead (Mobile App Development)
Peo Code 2.0 - 2023
